Hey Vickie,

Was a pleasure speaking with you my friend. I'm really excited to get you up to speed with all of this. Now you have all the right tools and knowledge necessary to help get rid of the fungal build up, help with any flare ups and longevity. We want to help alleviate the problem to make sure this issue does not happen again. I'm really looking forward to helping you get there within the next month.

Remember, we need to be sticking to a higher protein and lower carbohydrate diet similar to what you may already be doing, lets do our best to do that. Its crucial that we eliminate all sugars so that we help starve the candida bacteria. Do your best to keep the caffeine intake to a minimum as well.

Please take a look at this plan so you start understanding the nutritional habits we will establish over the next few months!

**Take Action Immediately!**

**Turmeric-7 The sacred plant:** Take One capsule in the morning with your Probiotic and Fungus nuker, repeat in the evening again this time with a meal for proper absorption. This is our stage 2 detox in which we will be working on ridding your body of any unnecessary toxins.

If it's okay with you ill be checking in on you periodically. Make sure we are staying consistent and start establishing a great routine. Reach out if you have any questions or if you would like to place any orders using my discount for the near future.
